- 80% of businesses fail within the first two years
- Most people start a business and have no real set plan of action or idea for the businesses future, they just “fall” into it

There's a great conversation in *Alice in Wonderland*

Alice: Which way should I go from here?

Cat: That depends on where you want to go

Alice: I don't much care where

Cat: Then it doesn't matter much which way you go, does it.

Do you care which way your business goes? Everybody knows that having a road map makes sense & gets us to our destination. **A business plan** is a road map for the direction of your business.
